

RESPONSIBLE VISITOR CHARTER

*8 easy things you can do
to help us look after the planet*

Welcome to Fish City! As a responsible visitor, you play a crucial role in helping us reduce our environmental impact and contribute to the well-being of our local community and environment. Here are some tips and guidelines to help you make greener (and bluer!) choices during your visit!

1. TRAVEL RESPONSIBLY

Consider using public transportation, walking, or cycling to reach our restaurant. Opting for eco-friendly transportation reduces carbon emissions too!

2. SUPPORT LOCAL

Choose dishes made with locally produced ingredients. Our menus feature a wide variety of items sourced from nearby farms and suppliers, supporting the local economy and its communities, and reducing the carbon footprint associated with transportation.

3. SAVOUR SUSTAINABLE SEAFOOD

We are committed to serving sustainably sourced seafood to protect the delicate balance of marine ecosystems. You can help us in this effort by choosing dishes made with MSC-certified sustainable seafood.

4. WASTE REDUCTION

You can help minimise food waste by ordering only what you can consume. Ask your server about a smaller portion or an alternative dish if you have a smaller appetite.

5. RESPECT FOR WILDLIFE

Our coastal location brings the presence of protected marine birds such as herring gulls. Please refrain from feeding them, as it disrupts their natural behaviour. Dispose of your litter responsibly to avoid attracting gulls and other wildlife unnecessarily.

6. WATER CONSERVATION

Help us in minimising water wastage and conserving our locally treated water supply by letting us know if you prefer tap water only upon request.

7. FEEDBACK & SUGGESTIONS

As we strive for continuous improvement on our sustainability journey, we value your feedback on how we can improve our sustainability efforts. If you have any suggestions or observations, please share them with our staff during your visit.

8. SUPPORT GREEN BUSINESSES

You can reward local businesses that look after the environment with your custom and support, and you can view more details on the Green Tourism Business Scheme at www.green-tourism.com
